Serving Every Sector with Single Window Solutions

Our specialist expertise coupled with thorough understanding of our customers’ processes enables us to provide integrated solutions that address their individual requirements, totally.

Industrial
- Automotive
- Brewery & Distillery
- Cement
- Chemical
- Construction
- Fertiliser
- Food & Beverage
- Mineral & Mining
- Oil & Gas
- Pharmaceutical
- Pulp & Paper
- Refinery & Petrochemical
- Semi-conductor & Micro-electronics
- Steel
- Sugar
- Textile
- Power
  ...and many more

Institutions & Commercial Complexes
- Defence
- Educational Institutions
- Hospitality
- Hospitals
- Laboratories
- Offices & Malls
- Railways

Communities & Municipalities
- Urban
- Rural

Realty
- Residential Complexes: Apartments / Bungalows
- Point-of-use – Zero B

Management of Process Water
- Cooling & boiler water treatment & management
- Complete range of products for scaling, corrosion, fouling & bio-control management
- Cleaners & disinfectants for process equipment
- Remote monitoring, measuring & control systems

Speciality Resins / Adsorbents / Membranes for Purification & Concentration
- For industries such as F&B, dairy, textile, brewery, pharma, biotech, etc.

Speciality Process Chemicals
- For paper, sugar, mining, oil refining, etc.

Speciality Enzymes
- For sugar, paper, etc.

Industrial Waste Water Treatment / Recycle & Zero Liquid Discharge
- State-of-the-art biological & advanced treatment processes for complex effluents
  - ASP, SBR, MBBR, MBR, UASB, CSTR, AOP
- Recycling systems incorporating ultra filtration, reverse osmosis, forward osmosis, multiple-effect evaporator
- Range of polyelectrolytes for colour, COD, TSS removal, etc.
- Selectively adapted bacterial cultures

Process Water Treatment - Ion Exchange & Membrane Based
- Complete range of standard & customised ion exchange process equipment - softeners, deaerators, demineralisers
- Membrane systems - micro filtration, ultra filtration, nano filtration, reverse osmosis
- Electro dialysis reversal, electrodialysis, electrosorption, electrodialysis
- Condensate polishing, desalination

Pretreatment
- Full range of advanced clarification and filtration equipments
- Feed water pretreatment chemicals including flocculants, coagulants, antiscalants
- Complete range of feed water disinfection equipment including on-site hypo generation, chlorine dioxide generators, ozone generators, ultra violet equipments

Services
- O&M, service contracts
- Water audits, consultancy
- Pilot studies, R&D, feasibility studies
- Plant upgradation, automation, rehabilitation
- Water systems on BOO/T
- Integrated facility management
- Supply of genuine ion exchange resins, membranes, adsorbents, RO antiscalants, cleaners, effluent treatment chemicals and critical spares

Drinking Water Treatment
- Drinking water purification systems for industry, communities, urban & rural
- TPU, point-of-use drinking water purifiers
- Full range of processes - membrane / non-membrane / non-electric
- Salinity, fluoride, nitrate, arsenic, iron & manganese removal systems
- Disaster management units (DMUs)

Sewage Treatment, Tertiary Sewage Recycle & Sludge Management
- Package & customised sewage treatment systems
- Widest range of biological process systems – SBR, CSTR, MBR, advanced anaerobic treatment processes
- State-of-the-art biological nutrient removal (BNR)
- Tertiary treatment systems incorporating range of membrane processes
- Waste-to-Energy
- Conversion of municipal solid waste-to-energy
